# memorandum

DATE: JAN 13 1992
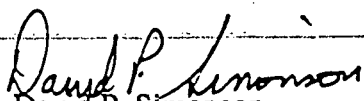

REPLY TO
ATTN OF: ERD:BKT:0323

SUBJECT: French Drain, Operable Unit No. 1

TO: J. M. Kersh, Associate General Manager
Environmental Restoration and Waste Management
EG&G Rocky Flats, Inc.

Please find attached letters from both the U.S. Fish and Wildlife Service (FWS) and the
Colorado Division of Wildlife (CDOW) regarding Endangered Species Act, Migratory Bird
Treaty Act and Fish and Wildlife Coordination Act consultation for the construction of the
French Drain on the 881-Hillside at Operable Unit No. 1. We request that EG&G review these
documents in great detail. Responses to comments and recommendations should be prepared.
In addition, necessary changes to the Final Habitat Survey Report and Biological Survey
Report should be made. Finally, for those FWS and CDOW recommendations which DOE
RFO and EG&G/RF concur, EG&G should initiate implementation immediately. A meeting
will most likely be required between DOE/RFO/ERD and EG&G to determine which
recommendations are reasonable to implement at the RFP. We request that your staff review
the attached letters and contact Bruce Thatcher of my staff at ext. 3532 to set up this meeting by
January 17, 1992.

Revised Final Habitat Survey and Biological Survey Reports, responses to FWS and CDOW
comments and recommendations and a strategy for implementing the recommendations should
be submitted to DOE/RFO/ERD by January 31, 1992. A meeting with FWS and CDOW will
be scheduled shortly after this submittal, allowing DOE adequate time to review the submittal
and allowing EG&G adequate time to incorporate DOE comments.

Any questions or concerns regarding this memorandum should be directed to Bruce Thatcher
of my staff at 966-3532.

David P. Simonson
Assistant Manager for
Environmental Management
